

# MESSAGE FROM THE ORGANISING CHAIR

It has been a tumultuous year. We hear about multi-million awards against doctors, hospital chains, changing hands and ending in fewer players. GP clinics are actively purchased by interested groups.

With the increasing regulations and compliance needs, this has brought into question about the future of medicine and health practice. Will we follow the path of the National Health Service in UK, capitalistic medicine in USA or the more amicable practice i.e. Singapore and China. We seemed to lean towards the USA model. I sincerely hope I am wrong and there is political will to alter the direction.

PMPASKL/FPMPAM are trying very hard to moderate the course toward a more favourable outcome.

For us in the Organising Committee, we hope to bring forth an equally successful event for learning, socialising, and renewing our friendship and camaraderie. We hope that you all can join us for our Annual Dinner

Dr Ho Shu Nam
